Re: WTC - NY

Dear Louis:

Mr. Jim Davis, our Chief Engineer, forwarded to you a request for certain tests to be performed on the material that you intend to use as fireproofing on the above project. Since that time we have heard absolutely nothing, particularly in regards to when Cafco intends to perform the tests and whether or not we can view the test procedures.

We have now received a communication from the Port Authority requesting a test schedule on the following points:

1 - Below freezing application.
2 - Effect of weather on material.
3 - Adherence to steel

Would you kindly advise what steps both you and Cafco are taking in this regards.

Very truly yours,

CUPPLES PRODUCTS CORPORATION

John J. O Keeffe
